

# Manage your Memberships

**As Society Leaders, you'll be responsible for managing your memberships.**

All societies will have a membership. This membership could be free, or you may decide to charge. Particularly for those charging students to join your society, you'll need to ensure all students engaging in your activity have paid their membership fee.

## **How to Join a Society**

To join a society, students should find their chosen group on our [student groups page](#). To pay for their membership, they'll need to log in (using their credentials from Portal) and add the membership to their basket. This works just like online shopping and students will be able to enter their payment details once they've checked-out.

Students can also purchase a society membership at the Guild Shop.
